You may consider this your official response from WLXG.

WLXG Broadcasts at 1300 AM. WLXG is an AM-STEREO station. During the day, WLXG broadcasts at 2500 watts, night-time/directional (toward Atlanta) 1,000 watts. Our General Coverage area consists mainly of those counties in Central Kentucky. We broadcast 24-hours a day, with studios and transmitter located at 1300 Greendale Road, Lexington, KY. We are affiliated with NBC RADIO, and TRANSTAR, a music network providing WLXG with an all-oldies format.

Our farthest signal report came from Finland, (with a rather comical cassette). We've also heard from Texas, South Carolina, Georgia (mostly southern states due to our night-time directional signal).

Yes, we do receive many DX letters. Part of the reason it's taken so long to respond.

The announcement you heard, by the way, was an announcement concerning a contest in which $13,000 in SOLID GOLD jewelry was given away. The report from Finland also included that announcement (he recorded it and sent copies... It was neat to know that my voice had travelled to Finland!).

Again, sorry for the delay in responding... I've not seen any of your other requests.

Best of Luck,

Don
